

RxIron

Supports healthy hemoglobin levels and red blood cell formation

This formula is designed to aid in increasing blood ferritin levels and production of red blood cells, while providing maximum absorption and minimal gastric side effects.

Specific features to note:

- **Albion Ferrochel®** brand iron bis-glycinate is a unique patented chemistry which allows the iron to be absorbed rapidly from the lumen of the intestines into mucosal cells and then released for transport throughout the body. This allows minimum gastric effects.
- **Vitamin C** which has been shown to drastically increase iron absorption. The formula incorporates both the water soluble and the fat soluble forms for maximum therapeutic value.
- **Folic acid** supplementation supported healthy hemoglobin levels better than iron alone in a double blind randomized study involving women.
- **Vitamin B12** (as methylcobalamine) is also essential for and intricately connected to the crucial roles of iron and folic acid in erythropoiesis, or red blood cell formation.

Directions:

Take 1 to 2 capsules, twice daily, with meals or as directed by a physician.

Supplement Facts:

Serving Size: 1 Capsule

Servings Per Container: 60

Each Vegetarian Capsule Contains:

Vitamin C (50 % ascorbic acid, 50 % ascorbyl palmitate)	- 250 mg
Iron (Ferrochel Bis-Glycinate chelate 140 mg)	- 28 mg
Folic Acid	- 400 mcg
Vitamin B-12 (Methylcobalamin)	- 500 mcg
Other Ingredients:	Vegetarian Capsule

Contains no sugar, starch, salt, yeast, wheat, gluten, corn, milk, egg, shellfish, preservatives or titanium dioxide; non-GMO product.
